CREMATION MEMORIALS

Community
Columbarium

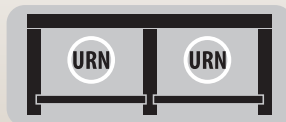

Personalized
Monument

Why choose a community columbarium when you can choose a final resting place personalized just for you or your loved one? A community columbarium is similar to an apartment, it's a shared space that lacks personalization.

By choosing a cremation monument solution, one can rest in peace in a permanent and personalized home where loved ones can visit and reflect often.

CREATE A PERSONALIZED TRIBUTE

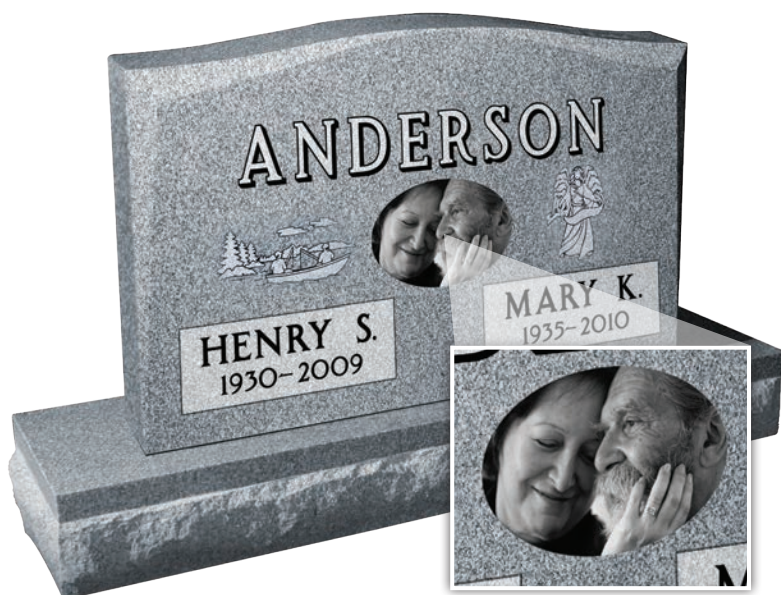

Although serif tops represent a more basic style of monument, there is no reason you can't make them extra special with the addition of laser artwork or our fine line of companion pieces. Simply add a larger base to accommodate solar lights, vases or even one of our unique statues. Turn a traditional memorial into a beautiful display that honors the legacy of a life once lived.

Add Granite Vases!

Add Solar Lights!

Add beauty with inserts!

Even if you're opting for a traditional color such as our Super Gray, there are still many options available for adding laser etched photos and artwork to your stone -- laser etched tiles can be inserted directly into the face of any stone in any color!
